

Sunny Prakash

He/Him, 30 years

Berlin, Germany | +4917627754543 | sunny.prakashgm@gmail.com

www.sunnyprakash.com | www.linkedin.com/in/sunnyprakash12

5 years of Front-End Development experience and skilled in designing, developing, and testing full-stack JavaScript ecosystem. Passionate about creating user-friendly and visually appealing web applications that meet both business and user needs. A UI enthusiast who is ready to pick up new skills. Curiosity and drive to learn are the keys that help me to grow as a Developer and as a Team player.

WORK EXPERIENCE

Senior Software Engineer, Latana (Full-time) – Berlin, Germany

Dec 2021 – Present

Latana is an AI-powered brand tracking tool that helps brands make better marketing decisions by delivering world-class, scalable insights.

- Developed user interface for Latana AI analytical tool by owning modules delivering end to end solutions to the business requirement.
- Spearheaded estimation and grooming new features with UX and Product managers in a sprint-based development cycle.
- Administered incidents and setup mechanism to tackle urgent bugs reported by customer success team.

Tech stack: TypeScript, React, Preact, HTML, CSS, Jenkins, Travis, Playwright, Amplitude, Ruby on Rails, GitHub, Figma.

Senior Software Engineer, Mastercard (Full-time) – Pune, India

Sep 2020 – Dec 2021

Mastercard is a global technology company in the payments industry. Provides solutions to financial institutions, governments and businesses.

- Worked upon Case Management System that investigates fraudulent alerts and create cases out of them. Investigators manage and interact with cases through the UI part of the application that leverages APIs built around the Mastercard fraud detection neural engine.
- Followed Agile methodologies to develop features and bug fixes. Worked with Product owners to groom stories and backlogs in JIRA.
- Received **“Being Inclusive Award”** for being communicative and actively participate in Team meetings and grooming sessions.

Tech stack: TypeScript, React, Redux, Saga, AWS, PostgreSQL, Express.js, HTML5, CSS3, Highcharts.js, Jest, Node.js, Docker, GitHub, InVision.

Associate Consultant, Infosys Limited (Full-time) – Pune, India

May 2019 – Sep 2020

Infosys is a global leader in next-generation digital services and consulting.

- Led the migration of legacy Mainframe operation console to React stack for one of the biggest Banking client. Maintained its quality using SonarQube, Jest, and Enzyme.
- Received Insta Award twice for best performer in Q1 and Q3 in subsequent year.

Tech Stack: React, Redux, JavaScript, ES6, HTML, CSS-in-JS, Sass, Express.js, Zeplin, GitLab.

UI Developer, G.S. Laboratory (Full-time) – Pune, India

Sep 2018 – May 2019

Great Software Laboratory works with customers building innovative products and services, helping them nurture their ideas, and scaling them into viable businesses.

- Zimbra Collaboration suite is a SaaS based product which provides email, event and calendar solution. Developed features for Zimbra X platform (Cloud version of the suit) in agile manner.
- Made the contribution to ZCS FOSS edition which has 70% codebase available as open source.

Tech Stack: Preact, JavaScript, ES6, GraphQL, Apollo, Less, CircleCI, Ubuntu.

Associate, Cognizant (Full-time) – Kolkata, India

Nov 2014 – Sep 2018

Cognizant is one of the world's leading professional services companies, transforming clients, business, operation and technology models for the digital era.

- Developed features and fixes bugs in Form Management Unit module, for one of the flagship Insurance client.

Tech Stack: COBOL, DCDS, MS Word, Z/OS

SIDE PROJECTS

Create React Saga:

A CLI tool that generates clutter-free Webpack backed React application. It provides boilerplate codebase, testing utilities and storybooks out of the box.

Mealander:

This android app generates random weekly meal plans. It is built using Expo & SQLite.

Hacktoberfest:

Made contribution to several projects and maintained open-source repositories during this month long annual event.

Problem setter at CutShort.io:

Contributes quality interview questions to the CutShort community that are related to Web technologies like React, JavaScript and HTML.
